New Source Review newspaper advertisements for construction permit applications, June 16, 2016. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: June 2, 2016, June 15, 2016, or June 16, 2016. Public notices are generally published every two weeks. The previous publication of public notices was June 9, 2016.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mrs. Michelle W. Owenby, Director, Division of Air Pollution Control, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 15th Floor, Nashville, Tennessee 37243 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Any individuals with disabilities who wish to participate in these proceedings or to review these filings should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such initial contact may be in person, by writing, telephone, or other means, and should be made no less than ten (10) days prior to the hearing, or the date such party intends to review such filings, to allow time to provide such aid or service. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 2nd Floor, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, Nashville, TN 37243, (866) 253-5827 (toll free) or (615) 532 0200. Hearing impaired callers may use the Tennessee Relay Service (1-800-848-0298).

The applicant is Potter South East, LLC with a mailing address of 511 E. Monticello Pike, Huntsville, TN 37756. They seek to obtain an air contaminant permit (Division identification number: 07-0181-03/71662) for construction of a Drum Mix Asphalt Plant located at 350 Royal Drive, Caryville, TN 37714. The proposed operation would consist of a drum mixer, asphalt cement storage, crushed aggregate storage piles, and reclaimed asphalt pavement for making hot mix asphalt. A baghouse (fabric filter) would be used for pollution control. Regulated air contaminants would be emitted by this source. Mr. J. Horton is the assigned Division person.

For the Campbell County "LaFollette Press" -- publish once on Thursday, June 2, 2016.

The applicant is <u>Kyowa America Corporation</u> with a mailing address of <u>1039 Fred White Boulevard</u>, <u>Portland</u>, <u>TN 37148</u>. They seek to obtain an air contaminant permit (Division identification number: <u>74-0454/971682</u>) for construction of a <u>surface coating operation</u> at <u>1039 Fred White Boulevard</u>, <u>Portland</u>, <u>TN 37148</u>. This operation consists of (1) paint line and associated electric drying oven and paint booth for coating plastic automotive parts. A water wash system is proposed for emission control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. J. Pratt is the assigned Division person.

For Robertson County "Robertson County Times" -- publish once on Wednesday, June 15, 2016.

The applicant is Mini Fibers, Inc. with a mailing address of 2923 Boones Creek Rd, Johnson City, TN 37615. They seek to obtain three air contaminant permits (Division identification numbers: 90-0267-01, -02, -03/71372, 71373, 71374) for three Pulped Fiber Drying Operations located at the same address. These existing operations consist of three hot air process lines fired by natural gas heater used to dry and recover fibers. The requested modification is to increase material input rate. Air pollution control equipment is a product collection cyclone and a cloth fabric filter. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. Moe Baghernejad is the assigned Division person.

For the Washington County "Johnson City Press" – publish once on Thursday, June 16, 2016.
